# CALL FOR ART

## FORAGING FOR ARTISTS & FAIRY ENTHUSIASTS

WISHBERRY HOLLOW is the culmination of love and labor of local artists and fairy enthusiasts, who will come together to lure our fairy friends into temporary dwellings as they pass through the area on their late summer migration. A pocket of the Myers' River View Trail in Livingston, Montana will be transformed into a fairy sanctuary during this two-week migration. This public art installation/pixie community will spark the imagination in both the youngest sprite and the eldest of wizards, by bringing together the beauty of nature, the whimsy of magic, and moments of curiosity, all enriching a sense of wonder in art and in the natural world.

DEADLINE  
APPLY BY  
MAY 7

ARTIST  
COMPENSATION  
\$175

### FAIRY DWELLING GUIDELINES

Fairy dwelling should be enchanting, whimsical, and imaginative. When designing your dwelling, consider not only the home, but also the inhabitant. Each fairy dwelling should be durable enough to withstand a gust of wind, a sprinkle of rain, or the inquisitive poke of an enamored child that might not know that they could spook the fairy back into hiding.

### SELECTION CRITERIA

15 proposals that creatively capture the magic, creativity, craftsmanship and detail that our fairy friends will most appreciate will be chosen.

*We will be accepting additional dwellings to be part of Wishberry Hollow beyond the 15 selected projects, however no compensation will be available.*

## DWELLING GUIDELINES

Each dwelling should be enchanting, whimsical, and imaginative. When designing your dwelling, consider not only the home, but also the inhabitant. Each fairy dwelling should be durable enough to withstand a gust of wind, a sprinkle of rain, or the inquisitive poke of an enamored child that might not know that they could spook the fairy back into hiding. Once installed, our fairy emissaries will be floating through the Hollow to regularly visit dwellings and whisper to the artists if there are any magical maintenance needs that need tending to while the exhibit is running.

**SCALE AND SIZE:** Through careful research and folklore, we have learned that the average fairy measures just 3 inches (7.5 cm) tall. Keep this in mind as you design your dwelling.

**LEAVE NO TRACE/RUBBISH:** The pixie community is highly allergic to rubbish. Not only does it give fairies horrific headaches, but it also nullifies their magic, so please make sure all materials used in your dwelling are either natural, or are secured in a manner that will not blow off the structure and create litter in Wishberry Hollow.

*Wishberry Hollow and the organizers are not responsible for any dark magic, pixie mischief, rascality, roguery, shenanigans, devilment, roguishness, destruction, or hooliganism that may wander through the Hollow and are not liable for any damage that may incur to dwellings.*

## SELECTION CRITERIA

Our Wishberry Hollow planning team will carefully review all submissions, and will choose the 15 proposals that creatively capture the magic, creativity, craftsmanship and detail that our fairy friends will most appreciate.

We will be accepting additional projects beyond that, but these will be considered a donation of time and talent, and no compensation will be possible due to funding limitations.

## PROPOSAL SUBMISSION

**Proposals must be submitted by May 7, 2024.**

Eubank Creative will confirm receipt of submission within 3 working days. Our Wishberry Hollow team will carefully and thoughtfully review all proposals and dwelling designers will be notified by **May 17, 2024.**

**Submit by email to: [megan@eubankcreative.com](mailto:megan@eubankcreative.com)**

**Submit by mail to: Eubank Creative | PO Box 883 | Livingston, MT 59047**

## DATES

**INSTALLATION:** Selected dwelling designers must be available to install their structure on **Friday, July 26, 2024.**

**TAKEDOWN:** Dwelling designers must be available to take down their structure the evening of **Sunday, August 11, 2024.**

## QUESTIONS
